stigo

* depending on the model

Why Stigo?

- +You can take Stigo **anywhere** you go
 - +You can fold it in 2 seconds – it takes up very little space.
 - +You can simply pull it along like hand luggage – no need to carry anything heavy.
- +You do not need to worry about the **parking infrastructure**
 - +You can take it easily to your apartment or office.
 - +You do not need to be concerned about your Stigo being stolen.
- +You do not need to worry about the **charging infrastructure**
 - +You can charge it easily in your home, office or cafe.
 - +You can ride about 20 km with a single charge. And it only costs about 4.2 cents.
- +You can combine Stigo **with all other means of transportation**
 - +You can take it easily in a car, train, tram, bus, boat or mobile home.
- +You can experience a truly **comfortable and carefree ride** with Stigo
 - +You can feel the ergonomic design of Stigo when riding it – it is designed so that the rider's weight is distributed between the arms, legs and upper body reducing stress on your muscles and back.
 - +You can ride it with peace of mind as it is street legal in all European countries.
